

InFinity Sliding Shutters

Gaash, Israël

Architect : Ilan Pivko Architects
Product : InFinity Shutters

InFinity Sliding Shutters are a contemporary addition to the Building Elegance range of louvre shutters. Placing the fins in front of the shutters creates a different appearance of endless lines, uninterrupted by vertical frames. The crisp design can be further accentuated by our special design finishes.

Key features

- Rectangular profiles running over full width of shutter, hiding frame from view
- Clean and crisp design without any visible fixings
- All profiles in aluminium for maintenance free durability and stability
- Excellent wood-look finishes for warm and natural appearance without weathering.
